## Product Description

### Bluetooth 3kw Bms Lifepo4 Batteries 12v Battery Lithium 200ah 240ah Sofar Solar Battery Pack

#### Features

**Compact Size:** Despite their higher voltage, 24V lithium batteries can still maintain a compact size. This makes them suitable for applications where space is limited, such as boats, RVs, and small off-grid systems.

**Increased Power Handling:** 24V lithium batteries can handle higher power demands more effectively. This makes them ideal for applications that require a substantial amount of power, such as electric vehicles, motorhomes, and larger off-grid setups.

**Longer Lifespan:** Just like other lithium batteries, 24V lithium batteries have a longer lifespan compared to traditional lead-acid batteries. They can endure more charge and discharge cycles, resulting in a more durable and long-lasting power solution.
